

PRASANNA SCHOOL OF PUBLIC HEALTH

MANIPAL

(A constituent unit of MAHE, Manipal)

Cordially invites you to the

GUEST TALK

Harmonizing the Real-World Evidence for clinical decision making

Since last 13 years, Anuj is active in the field of research management and worked with reputed for-profit and not-for profit organizations in healthcare. He holds a PhD in health economics from Erasmus University, The Netherlands. He is an expert in RWE in health technology assessment.

Currently with Philips Medical System B.V., Anuj develops value propositions for future healthcare technologies. Simultaneously, he identifies the impact of existing technologies in different geographies and population. Anuj loves exploring new statistical methods in epidemiology, HEOR and RWE. He manages research end-to-end, and represent company at different forums. He is active in health economics education and training.

Previously, Anuj worked with Erasmus Medical Center, Rotterdam and managed multi-country field trials in infectious diseases in LMICs. He managed data of over 180K subjects and published results in high-ranking journals, such as The Lancet. He worked in India, Indonesia, Nepal, Sri Lanka, Brazil, Myanmar, and Tanzania and deeply understands the health system. He published more than 16 articles on disease burden estimation, meta-analyses, survival analysis and economic modelling. In the university, he taught and supervised MSc. and PhD candidates.
